

WASHING & STORING GROCERIES

Use disposable gloves to carry the grocery bags into your house

Get rid of the plastic bags used to carry the groceries right away and put them in a separate garbage bag

Clean and disinfect all surfaces which your bags and the produce items have touched (such as the trunk of your car)

Clean and disinfect all food packages before opening them. Make sure that you always do so in a fixed area in the house and that you disinfect this area immediately after you finish

Store the fruits and vegetables in clean bags and get rid of the packages they came in

Disinfect the vegetables and fruits before consumption with the disinfectants available in the market (tablet or liquid) and dedicated for food products.

Wash your hands with soap and water or use an alcohol-based hand sanitizer

Store your food groceries in the appropriate way recommended for the products
